on the subject of

"WHO ELSE KNEW?"

*WERE HOLMES'S TALENTS
 USED AGAINST HIM?*

"It is a most singular thing that a problem as abstruse and unusual as any which I have faced in my long career should come to me after my retirement," wrote Sherlock Holmes. Fitzroy Macpherson, half-dressed, staggered up from the beach and died in agony at Holmes's feet. Days later, Macpherson's friend and one-time rival was stricken on the eve of his arrest. "I was slow at the outset, culpably slow," says Holmes. Yet we may learn much about the Master's growth and evolution by examining the case he called **The Lion's Mane**.

John Watson's reports brought Sherlock Holmes world-wide fame. Is it possible that Watson's accounts also gave criminals an advantage? In our Annual Leon Sterndale Invited Address, **Danna Mancini** explores the possibility that some followers of Watson's accounts may have used Holmes's own methods against him in an intriguing exploration entitled **"Who Else Knew?"**
